

NAVIGATING THE FUTURE OF MARINE FUELS

At the forefront of the marine energy transition, Maritec-Naias brings together decades of expertise, advanced on-board and laboratory testing capabilities, and global reach to support a cleaner, compliant maritime future.

As a proud member of the CTI Group and born from the legacy of MARITEC Singapore and NAIAS Greece, we serve as the group's marine services subsidiary delivering next-generation solutions in fuel, lubricant and environmental compliance testing. Headquartered in Singapore, our worldwide network is internationally recognised providing local support and rapid service delivery for 3000+ clients globally.

From traditional fuels to emerging alternatives, we ensure accuracy, integrity and assurance in navigating an evolving regulatory landscape.

Always testing what matters

Laboratories stationed in Singapore, Shanghai and Athens.
Offices located in Singapore (HQ), China, Greece, UK, Hong Kong, Japan, Australia, South Korea, Taiwan, Malaysia, Norway, UAE, USA, India, Turkey, Canada & Indonesia

Our services & solutions for a GREENER MARITIME FUTURE

MARINE ENERGY

Marine Fuel Testing Programme (MFTP)

Testing for Conventional Fuels, Biofuels, Marine Methanol & Alternative Fuels

Lubricant Oil Check Programme

Ensuring engine efficiency and preventive maintenance

Chemical Contamination Analysis

Screening or Quantitative Packages – standalone or with MFTP

Extended Fuel Analysis & Machinery Investigation

Expert support for troubleshooting and root cause analysis

Bunker Quantity Survey (BQS)

Independent verifiers acting in owners' best interest

Cargo Quantity Survey

For sensitive liquid & dry cargoes requiring precision and care

MARINE ENVIRONMENTAL COMPLIANCE SERVICES

Discharge Water Compliance Testing

Aligned with IMO and US EPA's VGP requirements

Potable Water and Boiler Water Testing

We provide certified potable and boiler water testing to ensure crew safety and optimal system performance

HKC Compliance (IHM Preparation & Maintenance)

Inventory of Hazardous Materials for compliant ship recycling

Responsible Ship Recycling Supervision

On-site supervision to ensure Environmental & Safety standards and help clients' achieve their ESG targets

Asbestos Surveys & Certification

IACS-compliant and Flag specific inspections across vessel types

Asbestos Management & Removal

Safe abatement by certified professionals

SUSTAINABLE ENERGY TRANSITION SOLUTIONS

ESG Sustainability Reporting

Custom ESG reports aligned with global frameworks and investor expectations

ISCC EU & ISCC Plus Certification

Support for operators in the sustainable marine fuel value chain

Fuel & Emissions Consultancy

Advisory on FuelEU Maritime, ETS and MEPC compliance mechanisms
